ARCHITECTURAL PRODUCTS

About Inpro

It all began with a single hole in a hospital wall over 35 years ago. Since then, Inpro has been manufacturing products that protect interiors from the daily abuse of healthcare environments. As a result, we've prevented the endless cycle of maintenance time and repair cost that facilities endure.

We come from healthcare roots and understand the unique challenges healthcare environments face. That's why we've extended our offerings and services throughout the years to address your greatest building product concerns. From products with inherent technology that keep surfaces clean, to those that help provide a safer atmosphere, you can be assured it's backed with the innovative materials, maximum durability and the obsessive service we're known for.

We obsess over protecting your buildings and the people who use them so you don't have to. Shouldn't every company you work with be as invested in your buildings as you are?

Obsessed with

SUSTAINABILITY

• PEOPLE • PLANET • ECONOMY

Health and sustainability go hand in hand because your building products can impact human health and the environment. We offer resources to help you make the most informed product decisions, employ sustainable business practices in our everyday operations and have a restorative vision for the future of our business. It is our policy to conduct business with a strong evaluation of the relationship between people, the planet and economy.

SAFETY

• SELF-HARM PREVENTION • STUDY FOUNDATIONS • DEPENDABLE DESIGN

Compliance aside, making facilities safer is just the right thing to do. That's why we obsess over protecting the safety of your building and the people who rely on them. People with disabilities and physical hardships, deserve the same freedom and protection as everyone else.

APPEARANCE

• DESIGN INNOVATION • DURABLE • CHOICES

The effects of design on patient and resident well-being are not new topics. However, new product are introduced all the time to support the creation of inviting environments.

HEALTH

• CLEAN SURFACE • HYGIENE TOUCHPOINT • WORRYFREE

It's time to face the truth: spray bottles and scrub brushes - even strict hand hygiene protocol - will never get the job done when it comes to keeping surfaces constantly clean, especially critical touchpoints.

• IPC®

DOOR + WALL PROTECTION SYSTEMS

At IPC®, we protect your buildings from relentless damage without compromising your choices in material, color, thickness or pattern.

We manufacture Door + Wall Protection that provides a better solution, eliminating never-ending maintenance and costly renovations

DURABLE

Building interiors take a lot of abuse but that doesn't have to leave you in an endless cycle of maintenance and repair. We offer a wide variety of wall protection choices that are sure to give you the look you want and protection you need.

POLISHED

Create the look you want without sacrificing the level of protection. IPC Door + Wall products give you the best of both worlds and allows you to enhance your building environment.

SUSTAINABLE

Because of our obsession with health and the environment, IPC® is committed to finding breakthrough materials for Door + Wall Protection products. Our patent G2 BioBlend® material and Rigid Vinyl material both give you the durability you need to protect your building and your budget.

We offer resources to help you make the most informed product decisions, employ sustainable business practices in our everyday operations and have a restorative vision for the future of our business

PROTECTING YOUR FACILITY AND ITS APPEARANCE

IPC® RIGID SHEET

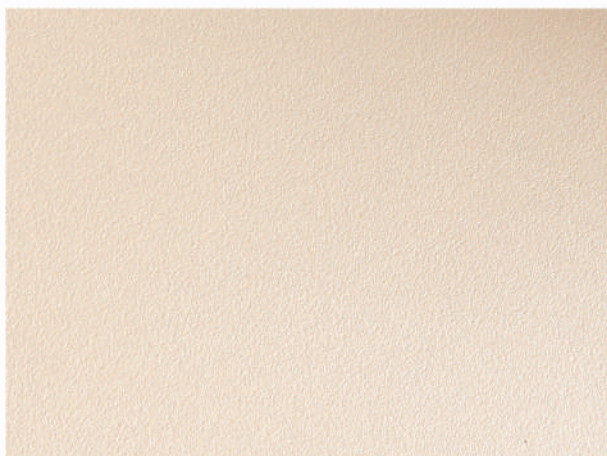

Design your walls with added protection.

IPC® Rigid Sheet provides a complete range of protection for your vertical surfaces. It ensures reliable wall protection that is durable, long lasting and easy to clean. To minimize seams on your wall, ask your sales professional about ordering your sheet in rolls.

IPC® Rigid Sheet

- Three thickness available
- Low maintenance velvet texture
- Available in rolls
- Class A fire rating
- Variety of trim accessories

IPC® Rigid Sheet Components

IPC[®] RIGID SHEET TRIM OPTIONS

Durable, long lasting and easy to clean.

Damaged walls leave a lasting impression on patients and staff. Make sure the walls in your facility are conducive to a healing environment and won't leave your maintenance staff making endless repairs.

Solid Colored Trim

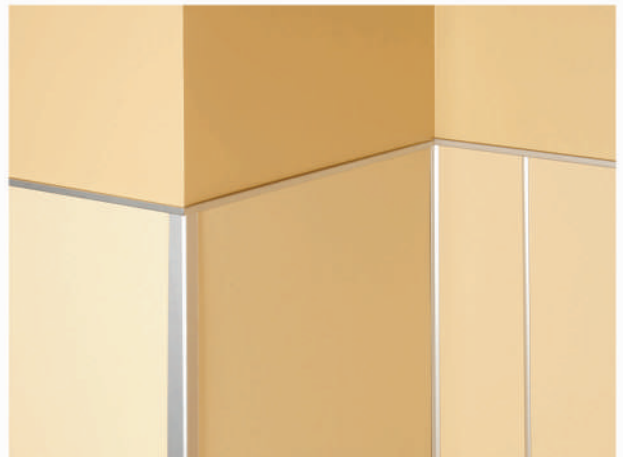

Stainless Steel Trim

Faux Metal Trim

Aluminum Trim

IPC® EXPRESSIONS™ RIGID SHEET

Express your brand message.

Bring personality to wall protection with IPC® Expressions™. Using our state-of-the-art manufacturing capabilities, we can cut virtually any design into Rigid Sheet Materials. The end result is a unique design that will defend your wall against damage.

IPC® Expressions™ are meticulously cut to come together like a puzzle on your wall join with the rest of your IPC® Rigid Sheet. Your strong message will double as strong protection for your walls.

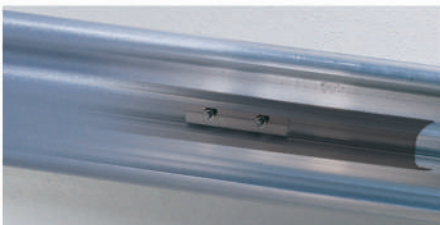

HANDRAILS

Safeguard people from slips, falls and more.

Protect your interior walls from damage, and safeguard the people who rely on your buildings from slips, falls and even dirt or odor-causing bacteria with our variety of handrails, whether you're looking for maximum wall protection or ADA or ANSI compliance, we have a handrail option for you.

Anatomy of a Handrail

Aluminum Retainer & Splice provides structural stability and allows extended length over 3.6 meters.

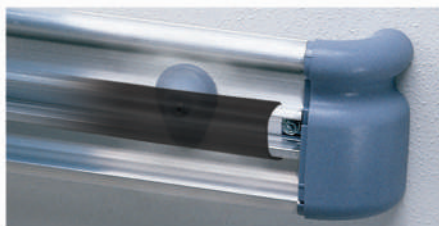

Mounting Bracket keep hands a safe distance from the wall.

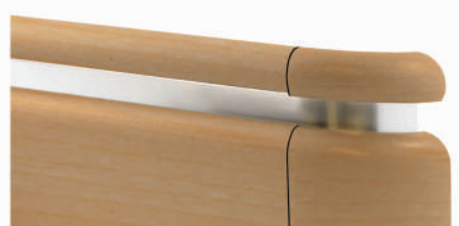

Cover is available in a variety of colors to coordinate with other interior finishes.

Inside|Outside Corner provides a smooth transition for corner applications.

Returns finish the handrail installation for a professional look.

Add a Reveal as decorative element, standard with every G2 BioBlend® and Woodland handrails order.

SLEEK HANDRAILS

Designed with both beauty and functionality in mind.

A modern look and feel that still provides the functionality of a traditional handrail.

DECORATIVE HANDRAILS

Handrails that are meant to stand out.

3500 SERIES HANDRAIL

There's no longer a need to hide the handrails on your wall. Let the handrail become part of your design and part of the experience while adding durability and protection.

3500 Series

With all of the materials and color options available, the 3500 Handrail has over 2000 combinations. Shown below are a few of our most popular combinations.

Material Choices:

- V - Vinyl
- FV - Woodlands (Rigid Vinyl Only)
- S - Stainless Steel
- W - Northern Hardwood
- M - Metal Tone
- B - Bumper (Available on Northern hardwood Bottom)

CORNER GUARDS

Protect the most vulnerable parts of your walls from damage

Corners are susceptible to endless damage. Protect them and keep your facility looking newer longer with Corner Guards from IPC®. Whether you need a quick fix or an integrated fire rated solution, we have the right corner guard for you.

TAPE-ON CORNER GUARDS

Protection that won't interrupt your design

No need for a heavy duty corner guard? Tape-on corner guards provide protection for those lighter-traffic areas without interfering with the design aesthetics.

TAPE-ON CORNER GUARD

Available with or without the double-sided foam tape

WALL GUARDS

Prevent scratches and dents

Guard your walls from scratches, dents and scrapes by installing one of our Wall Guards. There's no need to let wheelchairs, hospital beds and service carts leave you with constant maintenance. Our Wall Guards add a decorative element while providing a continuous and highly durable impact bumper that keeps your walls free from damage.

Don't let chairs and heavy traffic leaves your walls with scratches, dents and chips

How do wall guard protect?

- Wall Guards offer targeted protection in the areas receive the most abuse.
- Available in a variety of materials such as Rigid Vinyl G2 BioBlend®, Rubber, Aluminium, Stainless and HDPE to provide different level of protection.
- Designed to protect different spaces like head walls, cafeterias, hallways and loading areas
